ONE FOR THE SMART INVESTOR

Grab your calculator and then your cheque book. Investment opportunities like these are a rare find, currently showing high returns with plenty of scope for higher yields.

It's a neat 2 bedroom cottage with a living space with wood heater, 1990's refurbished bathroom and kitchen, with a front and rear timber patio with attached carport showing a strong rental history with a return of \$200 a week.

Here's the bonus and future potential. This 1005m2 allotment only 1 block to the main shops of Kandos is already approved as a 2 block sub-division with the appropriate fencing already in place giving you a 2nd allotment ready for a new construction or relocation for additional rental potential.

The additional block offers a substantial older style shed and garage leaving only the house to build to more than double its existing income stream.

An excellent opportunity for the astute investor looking for a justifiable return on purchase price by taking advantage of its potential.
