Modern Beachside Living with Scenic Island Outlooks

This near new, two level home takes beachside living into a graceful, comfortable realm.

The lower level with its two car garage, three bedrooms, a bathroom, family room with deck and a laundry enable adult owners upstairs privacy.

Internal and external stairs flow from one level to another. The upper is all about open plan living, a balcony from which to enjoy sunrises over St Alouarn Island plus a spacious, private main bedroom with ensuite bathroom.

Built in 2005 this home is sure to impress!

\$745,000
