Adaptable & Well Maintained Home

This home is beautifully maintained and has a very functional and adaptable floorplan which could suit a number of buyers. Have the weekends to your self - the yards are very low maintenance and you will be surprised at the views at the back that this elevated location offers. Originally a three bedroom home - a garage has been converted and is perfect as an office/ study but could also be used as a 4th bedroom. Spacious modern kitchen with dishwasher, built in storage throughout will impress. Every bit of space has been well utilized. Out side is a separate laundry area and also has a handy second shower & toilet. There is a large carport at the front and a full length enclosed garage which also has good height coverage for boats and caravans and also has electric door access. Great value here!
