Elegance meets Style and Convenience

The modern tonings and presentation of this fine residence are evident from the outset, but it's the refined quality of the interior which is so impressive.

Inspired by the beauty of Italy and designed to accommodate the modern family, the combination of formal and casual living areas will delight, while the five bedrooms and dedicated study will see everyone with their own space.

Relaxation is easy with a large dedicated media/family room while the private alfresco area is ideal for all-seasons dining and entertaining.

From the sweeping central staircase to the generous bedrooms and bathrooms, this is a residence that offers a flawless standard of luxury.

The extra-wide 24m frontage also allows for extra vehicle access and accommodation, adding to the practicality of design.

Surrounded by quality homes and located only a 2min stroll to the riverside park and handy to Taree West School, Club Taree and the city centre, this is a residence of distinction.

The owner will also consider varying settlement terms.
