ESTUARY VISTAS - SEMI RURAL

Tranquillity, stunning views, and an incredible single level home... room for the boat, the horse, the tennis court, the pool, the cocktail marquee and anything else you can imagine. This immaculate four bedroom home plus office (could be 5 bedrooms) is finished to the highest standard.

The master bedroom is fully equipped with an ensuite/walk-in wardrobes and you'll wake to morning sun over the Otahu Estuary.

Carefully designed into the home is a covered barbecue and entertaining area which also takes in this magic vista.

This property is set on the edge of the Otahu Estuary just 1.5 kilometres from town.

Built in late 2015, of long lasting materials, the layout of this near new brick home is expansive, taking advantage of the north-east facing aspect, and it ensures that almost every room has a view of the water.

The home boasts a huge entertainers kitchen and living, there are four big bedrooms including the master suite which has two walk-in wardrobes, ensuite and expansive views. There are two double garages to accommodate the cars and all the Whanga lifestyle toys.

Landscaping has not been entirely finished, so there is plenty of scope to add your own finishing touches to the property.

This home is set on 9500 square metres (almost a hectare), and has some grazing area between the home and the estuary shore.

Properties like this are few and far between so call me now to view.
