Springland's Sweetie

Take a peek around the back, the attractions of this delightful home are hidden from the street. Tucked away at the end of the cul-de-sac, this permanent material home will surprise you as soon as you walk through the garden gate. A large outdoor room/entertainers area, beautifully sheltered, and just perfect to relax and unwind from your busy day. The deck overlooks the manicured lawn and established trees and gardens frame the house and offer the utmost privacy. A huge conservatory (portioned off for extra bedroom space) leads to the separate living room. A recent addition of a gas fire and a heat pump cover your options for summer and winter comfort. The kitchen is modern and will equipped with a designated dining area and is complimented with polished wood flooring. The bathroom has a shower and bath, and the toilet is separate. There is internal access to the stepdown garage, which is conveniently automated. This is a wee gem of a home with a whole lot of great features in a price range and location that will have a lot of appeal. Ebook available on request.
