The Ultimate Opportunity -136 Hectares of Island

Would you like to own your own island? This jewel in the South Pacific is far enough from the 'mainland' of Espiritu Santo to be private - yet close enough that you are not totally isolated. 136 hectares (335 acres) gives you ample room to build whatever you like and the established coconut plantations allow you to be self-sufficient in bio-fuel if you wish.

A stunning white sandy beach runs along the western face of the island with deep water and game fishing grounds literally only a matter of metres away all around.

There is a lovely elevated plateau that gives you a site with outstanding views in all directions.

We are thrilled to have the opportunity to bring this spectacular property to the market and we do not expect it to be available for long.
