

Piece of Paradise, Aore Island, Espiritu Santo ,

2  1 

Strength You Can Rely On.

This architecturally designed two bedroom home was imported from New Zealand because Lockwood homes are renowned for over 60 years as some of the strongest houses for all environments.

The natural timber interior gives a spacious luxurious feel to this delightful home and timber decks outside continue the theme.

Nestled on an elevated section above your own deep water jetty this is a great opportunity to move in and enjoy the delights of the beautiful tropical Aore Island.
If you are looking for a sound home that you can move into and enjoy and when it suits put your own stamp on it then this is the perfect opportunity.

The value in having all of this work already done – especially having a jetty in place is something to be appreciated – both in monetary value and time saved.
With 5300m² of land and forty metres of waterfront this is one of the larger blocks in the area giving you ample room for expansion and enjoyment.

Call for a full information package – or better still jump on a jet and see for yourself.
