Affordable Island Living

Superb value with the hard work already done!

It can be challenging building a home on a pacific island but the end result is something most people will only daydream about.

Here you have a brand new home with all you need to relax and enjoy in the balmy tropics.

Did you ever think you could own a waterfront property with your own private wharf?

You can now. A very comfortable one bedroom low maintenance solid concrete home with spacious double garage and storage room provides a fantastic base for you. Nicely landscaped and groomed you can appreciate the pride taken by the current owners.

“Walk in walk out” – simply pack your suitcase and come and enjoy the beautiful weather, snorkelling at your doorstep, and wonderful privacy that is hard to come by out there in the crazy “real” world.

Be our guest – send for more information, or better still jump on a jet (only 2 ½ hrs from Brisbane)and come and see for yourself.

\$375,000
