Affordable Island Living

Superb value with the hard work already done!

It can be challenging building a home on a pacific island but the end result is something most people will only daydream about.

Here you have a brand new home with all you need to relax and enjoy in the balmy tropics. This means it is fully furnished and includes a 16ft Sea Jay a strong sturdy 4 mm bottom boat and the ATV. The property also has an electric winch and slipway.

Did you ever think you could own a waterfront property with your own private Jetty? You can now. A very comfortable one bedroom low maintenance solid concrete home with spacious double garage and storage room provides a fantastic base for you. Nicely landscaped with beautiful tropical gardens you will appreciate the pride taken by the current owners.

“Walk in walk out” (We can provide you with a full inventory of all items included) simply pack your suitcase and come enjoy the beautiful weather, snorkelling at your doorstep, and wonderful privacy that is hard to find out there in the crazy “real” world.

Be our guest – send for more information, or better still jump on a jet (only 2 ½ hrs from Brisbane) and come see for yourself.
