Don't Judge This Book By It's Cover

Just like a well-read book, there is so much more on offer than first meets the eye.

Lovingly cared for by the current tenants of nearly 18 years this cute two bedroom unit is great buying as a high yield investment property. (In the writer's opinion).

Just around the corner from Queens Square, New World and the Common Room you might even want to move in yourself.

A view of Te Mata peak from the back door and Hastings City from the front balcony it's a lovely little haven.

Call Tony for all the details, rents, open home times and a contract to present your written offer.

It stacks up!

By the way, the tenants want to stay!
