

38 Wampi Place, James Creek

GO YOUR OWN WAY

You can go your own way when designing your new home on a vacant block of land of this magnitude.

With the housing market on the move, there's no time to procrastinate - secure this block and get your imagination into gear working on your dream home.

With a scarcity of well-positioned rural blocks this 2.19ha parcel is a great find.

Set in a quiet cul-de-sac, among established homes, the block is cleared and is ready to build on.

There's no limit to what this acreage could become - especially with services available - so get your finance sorted and let your dream become reality.

 2.19 ha
